Getting Job Ready!

80% engineering candidates are not employable for any job in the knowledge economy.

How do we make them ready?

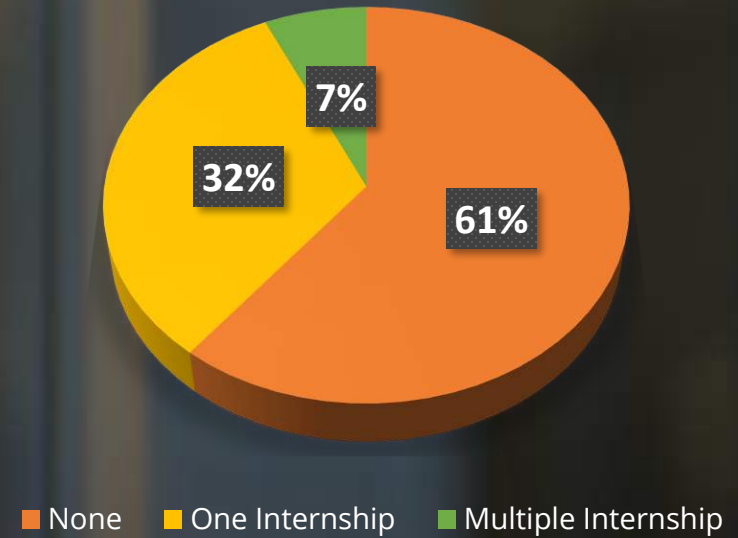

Can we look at increasing internships to give them real life exposures?

Industry Exposure

Over 60% engineering candidates don't take up any internship

Internships Taken

Launchpad in the real job world

Helps in exposure

Get an insight into the corporate world

Understand the skills required to excel

6 months internship must be compulsory for all engineering students.

Self Learning

Are Internships the only solution?

Students also need to invest in themselves to improve their own employability quotient

How can they do that?

Self Learning

900 universities

11,400 online courses

101 Million Learners

MOOCs are another good way to improve and acquire new skills

Encourage students to take at least 1 or 2 such online courses
