THOUGHT OF THE MONTH

UIT, RGPV Bhopal is on a fascinating path of growth and development. As you are aware, it has already established itself as one of the top technological institutes in the state, but that is just the tip of the iceberg compared to the huge initiatives and progress the institute is making. We are fortunate to have a talented, highly committed teaching and support staff here to ensure the learning environment of our students is the best it can be. Our faculties are renowned scholars and accomplished practitioners who are actively engaged in the academic excellence and innovative research ideas of the modern world. Our students are innovators, engineers, managers, entrepreneurs, and aspiring leaders – from every age group and are located at every corner of the country. Our unique teaching and learning process with a proper blend of theory and practice crosses the boundaries of nations towards industry-readiness and global excellence. UIT, RGPV Bhopal is envisaged as an autonomous teaching-cum-research Centre physically located in the University campus. Thus, all teaching and research facilities at UIT will be made available to students of the University and of affiliated colleges. In the near future it is envisioned that UIT will become a role model for other Institutes to follow and in the process help elevate the standard of education and research across the country. Emphasis is being given to strengthen the basic infrastructure of the basic & research laboratories, Cleanliness drive is being taken up from time to time. Major training schedules in the field of pedagogy and technical streams are fixed up in order to update & refresh the faculty, skill imparting initiatives for the students are being taken up. Hostels are being refurbished and their facilities are being improved up. Frequent campus recruitment drives are being started to provide job opportunities to students. We have made a stunning new beginning but there is a long way to go but I am sure, with the active cooperation of all our stakeholders, students, faculty, staff, employees, collaborators, parents of the students, governmental organizations, media and public at large, we will be able to fulfill the motto of UIT RGPV Bhopal.
