

“To give real service, you must add something which cannot be bought or measured with money”

- Sir Mokshagundam Visvesvaraya

INDEPENDENCE DAY CELEBRATED

7^{1st} Independence Day of India was celebrated with gusto at RGPV Campus. The national flag was unfurled by Hon'ble Vice Chancellor RGPV, Prof. Sunil Kumar along with Registrar RGPV, and Prof. S.K. Jain in the presence of faculty and staff members of various University departments. In his address, Vice Chancellor sought the cardinality of independence in individual's life especially from the perspective of teaching profession. He underlined the significance of treating each other as a part of one big universal family and working towards the welfare of each other. Registrar, RGPV, also highlighted the significance of independence and acknowledgment of role in nation building in one's behavior and attitude. Speeches followed the poem recitations, songs and other performance by various faculty and

student participants. Students from IIIT Bhopal who are staying at University campus also attended the celebration. For the first time in the history of University, the event was celebrated with prize distribution in the categories of 'Employee of the Month' and 'Activity of the Month'. For the first category i.e. 'Employee of the Month', the prize money of Rs. 1100/- was shared equally by *Shri. Yogesh Pandagre*, data entry operator, UIT RGPV Exam section and *Shri. Arun Gangrade*, Technical Assistant and Store Keeper, UIT RGPV Stores for their dedicated efforts and honesty in service. 'Fee collection via cashless transactions during this years admissions' was declared to be the best 'Activity of the month'. The prize money of Rs. 1100/- was received by Prof. Vinay Thapar Dean Academics, UIT RGPV on behalf of the academic section. The ceremony also witnessed sapling plantations all across the campus including hostels and guest house. The eights issue of newsletter was also released during the ceremony.

“I am indebted to my father for living, but to my teacher for living well.” - Alexander the Great

THOUGHT OF THE MONTH

I have been fortunate to associate with this prestigious University as a Registrar from very critical days of its incubation. We have envisaged RGPV to steadily grow into a sought after multi-disciplinary center of excellence. The prime focus of the university would be our 'students'. We will strive to make them capable, responsible citizens through best in class quality education and strong value systems. We believe in empowering students with strong knowledge base and quality standard of Technical education in a holistic and multidimensional manner encompassing all theoretical, applied and conceptual aspects by maintaining the exclusiveness of the discipline. We are committed to meet the needs of our students in a innovative and flexible curricula, excellence, effectiveness, academic rigor and personalized services. RGPV always be a learner-centric institute, dedicated to the success of the students and committed to excellent teaching, innovative research and responsible community service. The University consistently strives to provide an education that leads to degrees relevant to today's work place in a global setting, yet competitive in today's academic market place. The two fold function of executing programmes with adequate planning, and academic assessment monitoring with feedback. We, as the custodian of such a system of this University, ensure its smooth operations and timely implementation by continuous improvement and quality enhancement. Our field experts implement all programmes with a vigilant eye on quality improvement and service. The faculty and students is a valuable asset for us. We keep our doors open to listen to them as they are a direct source of information and feedback. Throughout this challenging journey we look forward to the unconditional support of alumni, well-wishers, students, parents and Government. This growth that we dream of can fructify only by way of taking a path less trodden, it will be unique in nature and form. Month of September holds a very special value in my heart. It brings along with both the teachers' as well as engineers' day. If engineers build our world, teachers build our lives. They are the two important pillars in our lives. I want to cease this opportunity in thanking my teachers for completely transforming my life. It is an exciting journey and I look forward to the challenges it brings along as the accomplishments will give me great pride and satisfaction.
