## Bhopal: The City of Lakes

Bhopal, the capital of Madhya Pradesh, is one of the greenest cities of India. Founded by Raja Bhoj in the 11th century. Located in the heart of India, Bhopal is famously known as the city of lakes because of the presence of many natural and artificial lakes. The major source of water is referred to as the bada talaab or upper lake. Bhopal is an important economic, industrial, political and educational center of Madhya Pradesh and is home to many institutions and installations of the state and national importance. The city has also contributed in the fields of science, politics, literature, etc.

## About the University

Established in the year 1998, by Madhya Pradesh Vidhan Sabha Act 13, 1998. Over a sprawling Campus of about 247 acres, the Rajiv Gandhi Proudhyogiki Vishwavidyalaya is marching towards development into a center of excellence in the arena of Technical Education, Research and Innovations. Under its umbrella there are 05 UTD's, 200 affiliated Engineering Colleges, 98 Pharmacy Colleges, 95 MCA Colleges and 04 Architecture Colleges imparting Graduate level instructions running around 17 under graduate level courses, 85 Polytechnic institutions offering diploma courses in emerging and conventional disciplines

## School of Pharmaceutical Science

One of the front line institutions in Madhya Pradesh dedicated entirely for post graduate study and research in Pharmaceutical Sciences, was established on 28th Dec. 2002. Dynamic and internationally top rated research is integrated with excellent teaching to further knowledge and understanding of medicines-how they made, how they act and how people use them to prevent and cure diseases. Our school aims to nurture outstanding researchers in a modern, forward-thinking and exciting place of work. We seek to advance the field of Pharmaceutical Science through state-of-the-art research and discovery in the areas of Anti cancer and Anti HIV drug design and development, biopharmaceutics and drug delivery. This multidisciplinary research develops new methodologies for drug discovery that identifies and develops new pharmacotherapeutic agents against validated targets implicated in Cancer & AIDS and develop and optimize new drug delivery systems.

The department has fully equipped with sophisticated instrument. The department also under take industrial testing and consultancy work as part of its interaction with industry and also organizes continuing education program, seminar, conferences for professional benefit to Pharmacy associates, faculty and students.

## Purpose of Conference

- ★ It will provide a common platform for all students, researchers and industry professionals to interact and understand each others need.
- ★ To increase employability as a result of industry academia interaction.
- ★ To impart knowledge about present industrial scenario.
- ★ To provide a transformative learning experience to young pharma graduate in a academic environment
- ★ We would like to focus on various opportunities in the field of pharmacy through vibrant lectures from eminent speakers of academia and industry which would result in high employability within the state.
