Teaching is a learning process in itself. The best teachers are good learners themselves. The teacher himself should be master in the skills he is imparting to his students, They should also be able to preach moral values and disciplines to his thoughts. A good teacher can inspire hope, ignite the imagination, and instill a love of learning. Education is the key to success in life, and teachers make a lasting impact in the lives of their students. Technology is just a tool.

Being a role model of students he has to follow the professional norms seriously and should be responsive to the special needs of his pupils. As a guardian /mentor and supervisor the canvas of his role becomes infinite, It ranges from canceling students to overcome daily trifles to motivating them to file patents for their prime research.

It's said that there are two kinds of teachers: the kind that fill you with so much quail shot that you can't move, and the kind that just gives you a little prod behind and you jump to the skies.

Dr A P J Abdul Kalam said "Teaching is a very noble profession that shapes the character, caliber, and future of an individual. If the people remember me as a good teacher, that will be the biggest honour for me."

Like a burning candle the teacher should keep on enlightening the brains of students.

"Tamsa ma Jyotirgamaya"

THOUGHT OF THE MONTH

"It is not that I'm so smart. But I stay with the questions much longer." - Albert Einstein

## INNOVATION FOR LIVELIHOOD EVENT

**E**-Entrepreneurship Cell, RGPV, a student body of the university under TEQIP-II organised an event “INNOVATION FOR LIVELIHOOD” on 14 Feb 2017 at University campus in order to create a vision of Entrepreneurship amidst the students of RGPV. This event amassed the interests of over 300 students who were shortlisted on the basis of their innovative ideas for solving the problems of daily life faced by the people. Speakers for this event: Mr Harsh Songra, is amongst the youngest successful entrepreneurs of India. Born in Bhopal, Mr. Songra is the developer of MyChild App and has also been listed in the Forbes 30 under 30. Mr. Samar Baisla, CEO at ILEAD CORPORATIONS, a New Delhi based corporation is one of the finest Indian entrepreneurs having tones of experience. Both the speakers shared their valuable experiences and conducted interactive activities with the students inspiring them to aspire more and achieve the goals of their life. Mr. Harsh told how important is to identify the differently abled people and treat them with love and care. Prof. Mukesh Pandey, Rector RGPV and Prof. S.C Chaube, TEQIP coordinator both encouraged the students to do great in their lives and also asked the students to think innovatively and out of the box.

## NEWS FROM AFFILIATED INSTITUTIONS

LNCT National Excellence Award Ceremony was held on 4 February 2017 at LNCT campus with a vision to felicitate immense contribution in terms of national excellence in the diverse fields of engineering and technology. Prof. Mukesh Pandey, Rector, RGPV received the prestigious award for his immense contribution in the field of solar energy for pioneering India's first Cross-Linear Concentrated Solar Plant (CL-CSP) - an Indo Japanese research venture established at the University campus. Besides, LNCT also conferred prestigious award to Dr B.B.Ahuja, Director, COEP for his contributions in Engineering

Education and Research, Cognizant for offering highest campus selections in a single day, Prism Cement, InfoBeans, Techracers and Kaltech Labs were also honoured along with Wadhvani foundation. The awards were distributed jointly by Collector Bhopal region, Shri Nishant Warwade and ADG Police, Shri Purushottam Sharma.

## FROM THE CORNER OF NAAC (SSR-RGPV): CRITERION VII - INNOVATIONS AND BEST PRACTICES

Frequent plantation drives are taken up to keep the campus green. Keeping in pace with Swachh Bharat Abhiyan of the Government of India, a clean line inside the campus is maintained. Rain water harvesting systems are installed on all the buildings of the campus. Solar street lamps are connected inside the campus. Energy Park inside the campus has all non conventional energy devices for research and demonstration like solar fountains, solar water heater, solar-wind biomass hybrid system, bio-diesel generation plant, CO2 sequestration plant and ultra modern wind mill turbine. Facilities are available for disposal of solid and liquid waste inside the campus. A group namely Green Army is formed by students to spread the environmental issues.

### NAAC TIMELINE

1. A letter was received from NAAC on 7 October 2016 regarding submission of Core and Desirable Indicators.
2. Hard and soft-copies of SSR in 3 volumes for UIT and UTD were submitted to NAAC on 28 October 2016
3. 50 Point Assessment indicators (co-indicators and desirable indicators), Certificate of Compliance, List of Department and Programmes offered on University campus have also been submitted to NAAC on 28 October 2016.

## FORTHCOMING EVENTS

- Workshops on Curriculum Innovations.

### DO YOU KNOW?

University has also established an Academic Staff College in the University Campus for the purposes of faculty development, institution building processes, and curriculum development and practice. Academic Staff College is supporting affiliated institutions of the University to offer education of high quality, engage in activities like continuing education, research and development, consultancy services, and undertake institution building measures. It is expected that these steps will bring about a gradual transition among institutions towards becoming institutes of excellence. Under the banner of Academic Staff College several Refreshers Courses and Orientation programs are being organized to train faculty of affiliated institutions.
